Your Local Branch for All Your Refrigeration Needs

Star Refrigeration - Bellshill branch has been established in West Central Scotland for 25 years.

Star Refrigeration is the largest independent industrial refrigeration engineering company in the UK, established in Glasgow in 1970. With over 250 employees nationwide, we provide fast response and 24-hour technical support from a network of nine branches to customers throughout the whole of the UK.

Star prides itself on being unique within the industry by putting customers first. This is why all Star branches, including the Bellshill branch, are not just outposts of the head office. They are almost autonomous, and supported locally by a multi-disciplined team of sales, technical and administrative personnel. Business support systems and processes are standardised throughout the company and deploy the latest technology.

This professional local support is complemented by our complete range of services – from design through to commissioning and maintenance of cooling solutions which are proven to reduce energy consumption, increase efficiency and drive down lifecycle operating costs.

Many of our West Central Scotland customers require rapid support when a refrigeration/production related problem arises. At all times, we endeavour to provide onsite support within 2 hours of notification by employing skilled engineers from within the immediate geographical area.

Star Refrigeration promotes youth employment through its apprenticeship scheme and has been recognised as one of the top "100 Best Companies to work for" by The Sunday Times.

Customer Benefits

- Dedicated, fully qualified engineering team for the West Central Scotland area
- Rapid response time, typically within 2 hours
- Aftercare to ensure continuous smooth operation
- Experienced management and engineer teams readily available 24/7
- Highest standard of Health & Safety with continuous improvement
- Mutually beneficial partnership: Maintenance Contracts are delivered to time, cost, quality standards and with minimum disruption to services
- Design and consultancy teams available for customer's new projects & energy initiatives
- Corporate level support for UK wide customer sites
- Security from working with a company recognised by industry as a benchmark in technology and innovation
- Continuous creation of employment & apprenticeship opportunities within the local community
- Peace of mind from working with an environmentally conscious, technically reliable and financially sound company

Bellshill Branch Staff

Regional Manager

Calum McKenzie

Calum has been with Star for over 35 years, and has gained experience in many areas of the company, including projects and sales. In 2007 he moved into the operations side of the business, as Bellshill's Branch Manager. Calum is now Regional Manager Scotland where he looks after both the Bellshill and Aberdeen offices, dealing with finances, customers and staff development.

Service Supervisor

David Wylie

Dave started as an apprentice from 1980-1987 and returned in 1993 as Service Supervisor in the Bellshill office responsible for Health and Safety Documentation and giving technical back-up to customers and service engineers. He also works on customer sites carrying out service work and undertakes Site Safety Questionnaires and plant surveys.

Regional Sales Manager

Euan Duncan

Euan joined Star in 2017 and is responsible for providing support to Star's existing and prospective customers across the Scottish region. This support consists of consultation with the customer followed by design and estimation to provide the most effective solution for any potential project. These can range from the repurposing of existing plant to the design supply and installation of new bespoke refrigeration systems.

Service Manager

Gary Beckwith

Gary joined Star Refrigeration Operations in 1994 as a founding member of the Glasgow branch from its new location in Bellshill. His career progressed into installation, service and maintenance of industrial refrigeration systems, where he completed on the job training and industry qualifications. In 2007 Gary was promoted to Service Manager, where he continues to positively contribute to an effective team.

Service Controller

Louise McGeough

Louise has been with Star for a total of 18 years starting as an admin apprentice. Working her way from branch administrator to Operations Administrator – Scotland she is now Service & Maintenance Controller for the Bellshill branch assisting Gary Beckwith with the day to day actions of a busy service office.

Contracts Manager

Ben McKillop

Ben has a wealth of refrigeration experience in many industries spanning 20+years both onshore and offshore in the UK. His career at Star Refrigeration began as a branch service engineer in 2016 and progressed to his current position as contract manager in January 2018. He is based in Aberdeen but responsible for branch contract projects for both Aberdeen and Bellshill branches.

Branch Administrators

Ashley Fisher & Lynsey Brannigan

Lynsey has been with Star for 10 years and supports the Contracts Manager. Ashley has recently joined the company and is responsible for the maintenance customer base. Both support the Bellshill operations team and are first point of contact for our clients. Responsible for invoicing, ordering materials and all aspects of administration within the branch.
